GENERAL SAFETY INSTRUCTIONS

⚠ **When using this machine, observe the following safety instructions to exclude the risk of personal injury or material damage. Please also observe the special safety instructions in the respective chapters. Where applicable, follow the legal directives or regulations for the prevention of accidents pertaining to the use of machine.**

⚠ **WARNING! When using this machine, basic safety precautions, including the following, should always be followed to reduce the risk of serious personal injury and/or damage to the unit.**

TRAINING

⚠ **The operators must receive proper training in the use, adjustment and operation of the machine, including prohibited operations.**

- Read the instructions carefully. Be familiar with the controls and the proper use of the equipment. Spend a few moments to familiarize yourself with your machine before each use.
- Never allow children or people unfamiliar with these instructions to use the machine. Local regulations can restrict the age of the operator.
- This machine is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the machine by a person responsible for their safety.
- Never work while people, especially children, or pets are nearby.
- Keep in mind that the operator or user is responsible for accidents or hazards occurring to other people or their property.

WORK AREA

- Keep work area clean and well lit. Cluttered and dark areas invite accidents.
- Check the landscape where the machine will be used and remove all objects such as stones, toys, sticks and wires, which could be caught and thrown away. Damage of the machine or operator's injury could be caused.
- Keep children and bystanders away while operating the machine. Distractions can cause you to lose control.

PERSONAL SAFETY

- This machine is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the machine by a person responsible for their safety.
- Children should be supervised to ensure that they do not play with the machine.
- Stay alert, watch what you are doing and use common sense when operating this machine.
- Do not use this machine while you are tired, ill or under the influence of drugs, alcohol, or medication, or during pregnancy. A moment of inattention while operating this machine can cause you to lose control and may result in serious personal injury.
- Do not overreach. Keep proper footing and balance at all times. This enables better control of the tool in unexpected situations.
- Dress properly. Do not wear loose clothing or jewellery. Keep your hair, clothing and gloves away from moving parts. Loose clothes, jewellery or long hair can be caught in moving parts.

SPECIFIED CONDITIONS OF USE

- Don't overload the trailer, pay attention to the maximum load capacity.
- For use towing trailer units connected with trailer, the rotation cannot be done, when the radius is less than 3 m.
- For securing the load, use enough amount of tested and firm ropes.
- Don't start the engine of the tow machine indoors (closed spaces). Flue gases contain poisonous carbon monoxide. Inhalation may lead to unconsciousness or even death.
- You can´t transport people on the trailer.
- Don't jump in and out, while driving.
- Be careful on sloping terrain and off-road.
- Maximum slope accessibility of trailer with connected towing unit is 13°. Never exceed the maximum values given by the producer for the towing machine (garden tractor etc.)
- When you move down the slope, use 1st or 2nd speed.
- Make all repairs, greasing and adjustment, when the machine is in quiet position and is secured against moving.
- Check regularly tires and pattern design. If you find the crack, bulges etc., don´t use the trailer and immediately change the tires

PERSON PROTECTION

⚠ **Be prepared! Have about one following things at least:**

- Suitable fire extinguisher (CO^2 or Dry Powder).
- Fully equipped first-aid kit, available easily for machine operator and accompanying person.
- Mobile phone or another device for quick calling of rescue service.

⚠ **Don´t work alone. There must be around another person who knows principles of the first aid.**

⚠ **The accompanying person must keep safe separation distance from your workplace, but he/she must be able to see you the whole time! Work only on such places where you are able to call the rescue service quickly!**

- In case of any injury always proceed in accordance with the principles of first aid.

In case of fire.

- If the machine starts to burn or the smoke comes out of it, step back to safety.
- To extinguish the fire use powder extinguisher or sand, which you can throw on the fire using the shovel.
- Do not panic. The panic can cause even more damage.

Behaviour in case of injury

- Provide appropriate and necessary first aid and call qualified medical advice as soon as possible.
- Protect the injured before further injury and reassure them.

RESIDUAL RISKS

- Even if the device is used according to instructions, it´s impossible to eliminate all the risks associated with its operation. The following risks may occur arising from device construction:
